FP3-HJ-K1

4 Stage Water Filtration System with UF Membrane

The package contains:

- Melt-blown polypropylene cartridge with NSF certificate - 5 µm (FCPS5)
- Water softening and iron removal cartridge (FDA-approval) - FCCST2
- Filter cartridge filled with coconut shell activated carbon and KDF® media (FDA-approval) - FCCBKDF
- UF membrane element type: TLCHF-2T
- NSF certify filter housings (with double o-rings), filter housing wrench
- Long Reach Chrome Faucet, Feed water connector 1/2"
- Four Color Coded 1/4 inch Tubing for System Connection (FDA-approval)
- Completely Assembled, Manual instructions, Color box
- 100% Factory Tested and Sterilized Ready for Installation

Specifications:

Dimensions (H x W x L): 395 x 140 x 360 (mm)
Connection adapter: 1/2"
Working Temp.: 2°C - 45°C (35°F - 113°F)
Working Pressure: 3.5 bar (52.5 PSI)

CATALOG#	STAGE	COMPONENT	FUNCTION
FCPS5	1	Sediment Filter Spun-bounded polypropylene	5 micron sediment filter traps dirt, sediment, rust and other particulate matter.
FCCST2	2	Ion exchange High quality ion exchange resin	Step 1: Water hardness reduction. Step 2: Reduces the concentration of iron.
FCCBKDF	3	Carbon Cartridge & KDF® Activated carbon coconut shell with KDF®	Step 1: KDF® features bacteriostatic capacity, protects against the development of other deposits of bacteria. Reduces the levels of iron and heavy metals. Step 2: Final reduction of chlorine, pesticides, organic substances and a final improved taste and odor of the water.
Ultrafiltration (UF) membrane			
TLCHF-2T	4	Ultrafiltration separation mechanism is commonly attributed to the pore size of the membrane as low as 0,02 micron	Rejects or separates high molecular weight solutes as well as suspended solids, colloids, and macromolecules, bacteria and some viruses.

Additional accessories

NOTE
 - Do not use with water that is microbiologically unsafe or of unknown quality without adequate disinfection before or after the system.
 - Water filtration systems can help reduce the presence of contaminants. In addition, some water filtration systems can help reduce the presence of microorganisms or other contaminants with potential health effects.
 - We strongly recommend regularly scheduled maintenance and replacement of the filter cartridge in order for the product to perform properly.
 - Replace the filter cartridge at least every 3 or 6 months (depending on water quality).
 - UF membrane recommended to change every 12 months (depending on water quality).
LIMITED WARRANTY: Manufacturer warrants that this product is free from defects in materials and workmanship. This warranty, together with any and all warranties implied by law, shall be limited to a period of two (2) years from the date of original purchase. This limited warranty does not apply to failures that result from abuse, misuse, alteration or failure to properly comply with installation, or cartridge change instructions.
 We strongly recommend adding to all point of use filtration systems a Pressure Limiting Valve (PLV-0104 series) to guard against unwanted extreme water pressure events pressure increases, surges, and water hammer which could occur in the water pipes. Not having one installed could mean that if you ever did have to claim damage caused by a burst water filter system, the claim will be denied.

EKOF4-SLIM-UF

**4 Stage Ultrafiltration System
based on UDF-SLIM Cartridge Type**

Made in EU

General Description:

EKOF4-SLIM-UF The Push-In four stage undersink water filtration system with ultrafiltration membrane (UF) is ideal for kitchens with limited under sink space.

It features a Push-In Economical type cartridge system, ensuring quick, easy removal and installation.

The Aquafilter Four Stage Under Sink System has set the economical cartridge standard for water filters.

Apart from food, people today depend on water for healthy living. When water becomes contaminated, individuals may be exposed to life-threatening illnesses.

Setting up a **EKOF4-SLIM-UF** water filter for your house makes a superb economical start.

Features:

- High quality
- Competitive Pricing
- Four Stages of Filtration
- Push-In type cartridge replacement
- Easy Economical Cartridge Maintenance
- Easy to install
- Systems equipped with modern faucet and all installation accessories
- The EKOF4-SLIM-UF with Push in type cartridges undersink DIY package comes complete and ready to install
- Hand Built & Factory Tested
- Hygienic Push-In Cartridges
- Fast product delivery
- Innovative **BACINIX** nanosilver technology, providing antibacterial protection
- Made in EU
- Compact size for undercounter and apartment
- Designed to remove contaminants of small pore size (0.02 micron) - capillary technology - ultrafiltration UF
- Manufactured from FDA CFR-21 compliant materials

Recommendations for Use:

- Point-of-Use (POU) systems can filter out bad tastes, colors or odors, which pose no health risk but still affect the water quality
- This system will improve the flavor of water used for drinking and cooking
- Perfect for almost any household and will easily fit into any space
- Kitchen compact, undercounter, home and apartment size
- Recommended for Families
